

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

## MEMORANDUM

To: Superintendents, Principals, and Human Resource Directors

From: Office of Educator Licensing

Date: October 29, 2021

Subject: Proposed Teacher Shortage Areas for 2022-2023

The Indiana Department of Education (IDOE) is preparing to submit the list of Indiana teacher shortage areas to the U.S. Department of Education (USDOE). USDOE will then make this information publicly available for all states, providing a resource for recent graduates as well as trained, experienced teaching professionals aspiring to serve school districts with shortages. Additionally, the listing serves as a resource in advising federal student financial aid recipients of the potential to reduce, defer, or discharge student loan repayments by teaching in certain areas. The national teacher shortage list by state from 1990-2017 can be found [here](#).

Indiana's proposed teacher shortage submission for 2022-2023 is informed by 2020-2021 emergency permit issuance, long-term vacancy data collected from schools, and IDOE job bank postings. If you are experiencing significant shortages in content areas other than those proposed below, please email [licensinghelp@doe.in.gov](mailto:licensinghelp@doe.in.gov) with the subject line "Teacher Shortage Areas" so additional shortage areas can be considered. Please respond by close of business on Friday, November 12.
